

# WEST VIRGINIA REPORT CARDS 1999-2000

## MESSAGE FROM THE COUNTY SUPERINTENDENT

With each step, the Grant County School system is working toward the goal of preparing our students for the 21st century. With over 60 percent of jobs in the future not yet created, our students must not only be prepared, but also be competitive in their demonstration of cognitive and operational skill development.

To reach this goal, the Grant County School system is raising expectations, demanding accountability, and providing a more challenging curriculum. Technology will not only be the driving force in all areas of curriculum development, but will also be the tool to achieve this goal.

With a strong foundation in place of knowledgeable staffs, committed students, and dedicated parents, the school system is ready to embark on the next step in the journey to educational enhancement. Utilizing site-based management and adhering to Howard Gardner's multiple intelligences theory, Grant County School system is ready for the 21st century.

It is with great pride that I serve the students, parents, and staffs to meet our goals.
