

WEST VIRGINIA REPORT CARDS 1999-2000

MESSAGE FROM THE COUNTY SUPERINTENDENT

We are pleased to present the 1999-2000 West Virginia Report Card, which reflects the many achievements of the Tucker County Schools community.

This is a dynamic time for our school system. The 5.6 million dollar Tucker County High School project, funded by the West Virginia School Building Authority, is well under way. A variety of new high-quality programs and courses have been made available to our PreK-12 students over the past year. We have made further provision to serve even our youngest citizens through the addition of a preschool in the northern end of our county.

Educating our children is a shared responsibility and the Tucker County School System is dedicated to maintain a high level of school/parent/community communications. We welcome your comments, ideas, and suggestions as we continue to prepare our students for the challenges and rewards in this promising new millennium.
