Interactive Demo - Access Instructions

Spring 2017
ELPA21 Interactive Demo Access Instructions

It is strongly encouraged that all students participating in the ELPA21 Assessment take the Interactive Demos to practice and familiarize themselves with the online testing platform and item types/functionality in advance of the operational test. Because the Demos are essentially a practice opportunity for the students, their answers will not be saved. Interactive Demos do not contain secure content; they may be viewed outside of a secure environment.

Prior to administering the Interactive Demos, there are two steps you should take:

1. Review the Interactive Demo Lesson Plans (available by grade band)
2. Using a Chrome Browser, navigate to elpa-demo.nextera.questarai.com

The supporting documentation necessary for steps 1 and 2 can be found at wvde.state.wv.us/federal-programs/ELPA.htm and wv-elpa.nextera.questarai.com/admin (after 1/19).

Interactive Demos

The Interactive Demos are available for each grade band. There is a long and short form demo for K. Students who are less familiar with online testing should be administered the long version.

Note:
- The tools and accommodations available in the Interactive Demo may vary from the actual test.
- During the testing window, students will not be able to select their own designated supports or accommodations. Any designated supports or accommodations will be pre-set based on the student's ELL, IEP or 504 plan. These details will be submitted through the pre-ID file submitted by WVDE.

Accessing the Interactive Demos

1. Using a Chrome Browser, navigate to elpa-demo.nextera.questarai.com
2. Select the appropriate grade from the drop-down menu and click START TEST.

![Select Interactive Demo](image)

3. If a student needs an online designated support or accommodation, click the icon next to the specific support or accommodation. The selected support or accommodation will turn blue. Once completed, click CONTINUE. The examples of the accommodations and tools available in the Interactive Demo will be different than on the actual test.

![Select Accommodations](image)

4. The directions for navigating and taking the Interactive Demo will begin.

The Interactive Demo Lesson Plans should be used to prepare students for the operational administration.
