**Policy Cycle:**     \_\_\_- day Comment Period                       Adoption of Policy

**Policy Process:**     Revision         Repeal and Replace         New

**Introduction:** Policy 4373 is being amended to update language, provide clarification, and add evidence-based practices to the list of expectations.

**Background:** Policy 4373 was last amended in 2018 and had minimal changes, specifically, inappropriate behaviors were removed from the policy and attached in the appendix. This revision will bring the behaviors back into the body of the policy and will assign them a default level. Since the last revision of this policy much work has been done regarding the supports that can be provided through multi-tiered systems of support and these revisions look to add those expectations into best practice. Also, since the last revision there has been much discussion regarding the use of exclusionary practices and the impact they have on student success and learning. Seeing that impact, this revision looks to provide transparency in the use of such practices by requiring a yearly report by each LEA. In creating this revision the Office of Leadership Support utilized internal and external stakeholders.

**Proposed Changes:**

- Clarification on PRO/SRO responsibilities and roles.
- Adding required statutory language related to self-harm and eating disorders.
- Providing for the requirement for expected behaviors/rules to be explicitly taught.
- Adding elements of multi-tiered systems of support frameworks throughout the policy.
- Defining interventions and consequences and setting forth requirements to require reporting.
- Setting forth an expectation that the use of exclusionary practices be reported publicly to ensure consistent and equitable use.
- Clarifying the purpose and use of discipline matrices.
- Placing common behaviors under a baseline level with some changes in definitions.
- Clarifying wording for dangerous and deadly weapons.
- Language related to vaping devices and with and without nicotine or THC.
- A requirement for expulsion on the threat of school violence or a felony.
- Recommendations on alternatives to exclusion that county boards may choose to adopt as a research-proven alternative.
- Clarification of dangerous student and persistently dangerous school definition.
- Requirement for accurate reporting of discipline data and reporting procedures.
- Clarification of requirements for alternative learning settings and transportation/enrollment.

**Impact:** These changes should provide LEAs with the appropriate flexibility and guidance to best answer the unique discipline needs of their district or schools. Students should be provided with appropriate supports and have a better understanding of what is permissible and what is not with the provided expectations. Communities should also have a better understanding of how discipline is being handled at their local school and have the opportunity to provide feedback on what is expected.

**§126-99-2. Purpose.**

2.1. The WVBE recognizes the need for students, teachers, administrators, and other school personnel to have a safe and supportive educational environment. Public schools should undertake proactive, preventive approaches which integrate services using a Multi-Tiered System of Supports (MTSS) framework. MTSS frameworks utilize evidence-based strategies to promote students' academic success, behavioral and mental health, including social and emotional needs, trauma sensitivity, bullying prevention, dropout prevention, and truancy reduction to ensure a positive school climate and culture that fosters learning and personal-social development. This rule requires county boards of education to design and implement procedures to create and support continuous school climate and culture improvement processes within all schools that will ensure an orderly and safe environment that is conducive to learning for all.

**§126-99-3. Incorporation by Reference.**

3.1. The West Virginia Manual for Expected Behavior in Safe and Supportive Schools is attached and

**WEST VIRGINIA MANUAL FOR EXPECTED BEHAVIOR IN  
SAFE AND SUPPORTIVE SCHOOLS (4373)**

**Introduction**

The West Virginia Manual for Expected Behavior in Safe and Supportive Schools provides guidance to assist all public schools to design and implement procedures to create and support positive school climate and culture improvement processes that will promote students' academic success and behavioral health, including social and emotional needs, trauma sensitivity and responses, bullying prevention, dropout prevention, and truancy reduction to ensure an orderly and safe environment that is conducive to teaching and learning for all.

**Chapter 1**  
**STUDENT PROTECTIONS**

School officials are responsible for student safety, welfare, and behavior from the time a student boards the school bus or arrives at school until the student returns home or to his/her designated bus stop. It is a student's responsibility to follow school rules and regulations and to cooperate with school authorities who enforce these rules and regulations.

**Section 1. Student Inquiry and Expression**

Schools may not conduct, sponsor, or endorse religious activities. Individual students have the right to practice their own religion in a manner that does not interfere with the orderly conduct of classes and may form student groups with a religious focus that meet before school, after school, or during a sanctioned club or activity time. Students have the right to be absent from school, on a reasonable basis, for religious instruction and/or for participation in religious activities. An opportunity must be provided for students to make up any work missed; however, it is the student's responsibility to make up such work pursuant to the rules established by the school or county.

Students are entitled to exercise appropriate speech while at school. Freedom of speech includes forms of expression other than vocal, provided this activity does not materially or substantially disrupt the work and discipline of the school or impinge upon the rights of other students. Schools shall limit vulgar or offensive speech inconsistent with the school's responsibility for teaching students the boundaries of socially appropriate behavior. Students' off-campus conduct that would reasonably be expected to cause disruption in the school may be prohibited or disciplined. This includes, but is not limited to, all online activity, messages, and texts created for the purpose of inviting others to indulge in disruptive and hateful conduct towards a student or staff member.

Students have the right not to be compelled to participate in certain types of speech, such as reciting the Pledge of Allegiance. Students who choose not to participate in these ceremonies have the responsibility to respect the rights of those who do participate and must remain respectfully silent.

School-sponsored student publications that are a part of the curriculum are subject to teacher editorial control and therefore student speech may be regulated in a manner reasonably related to educational purposes.

**Section 2. Non-curriculum Related Student Groups**

When high schools allow one or more student groups whose purpose is not directly related to any class taught at the school to meet at the school, this meeting is referred to as a limited open forum. If a school is a limited open forum for any purpose, the school must allow religious, political, and/or philosophical group meetings as long as the meetings are voluntary, monitored by the school, and do not interfere with the conduct of school activities.

**Section 3. Protection from Unreasonable Searches and Seizures and Self-Incrimination**

Federal and state constitutions and statutes provide protection for all citizens from unreasonable searches and seizures. Although school personnel have more latitude than law enforcement in this regard, because they do not need search warrants, search and seizures of lockers or students by school officials must be

reasonable and based upon the information known by them at the time of the search. Personal property may be searched by those authorized where there is reasonable suspicion to believe that student property contains stolen articles, illegal items, or other contraband as defined by law or by local board or school policy.

Students also have a right under federal and state constitutions not to incriminate themselves about a crime when questioned on school grounds by an individual acting in the capacity of a law enforcement official. The students are entitled to be informed of their right against self-incrimination if they are in a custodial setting. However, the students are not at liberty to terminate the interrogation and leave. Students do not have a constitutional right against self-incrimination when being questioned by school officials or Prevention Resource Officers (PRO)/School Resource Officer (SRO) acting under the direct and immediate supervision of school officials while conducting investigations of school-related misconduct. The PRO/SRO is responsible for ensuring constitutional and legal obligations are maintained when conversations and investigations extend beyond school related misconduct.

#### **Section 4. Child Abuse and Neglect Prevention**

This section sets forth when the West Virginia Department of Human Services (WVDHS) and law enforcement must be notified about suspected child abuse and neglect. Victims of abuse may seek the advice or assistance of a teacher, counselor, nurse, or other school or county personnel. School personnel shall assist students in getting needed help to prevent the abuse from recurring.

##### **24 Hour Notice Requirement**

Mandatory reporters, such as teachers, school personnel, counselors, nurses, coaches, or volunteers who provide organized activities for children, or other professionals within a school who suspect that a student is being abused or neglected, shall immediately, and not more than 24 hours after suspecting this abuse or neglect:

- report the circumstances to the WVDHS, and
- inform their immediate supervisor immediately following and not more than 24 hours after reporting suspected abuse or neglect to WVDHS.

In any case, where the mandatory reporter believes that the child suffered serious physical abuse, sexual abuse, or sexual assault, the reporter shall immediately report the same to:

- the West Virginia State Police, and
- any law-enforcement agency having jurisdiction to investigate the complaint.

Mandatory reporters who are also staff or volunteers of an entity or organization that provides services to a school or otherwise organizes activities at a school or on school premises, must immediately notify the person in charge of the entity or organization providing services or activities to a school. The mandatory reporter must follow any additional reporting requirements established by such entity or organization.

In determining whether conduct falls within the exception to the mandatory reporting requirement, mandatory reporters are encouraged to err on the side of caution and report the conduct within the mandatory reporting time frame.

State law contains criminal penalties for failure to meet the reporting requirements outlined in this

section. For more information on those penalties, refer to W. Va. Code §49-2-812.

### **Section 5. Age-appropriate Body Safety Information**

Children in grades K-12 shall receive age-appropriate body safety information at least once per academic school year, with a preference for four times per academic year, addressing education and prevention of the sexual abuse of children.

To facilitate this process, the WVDE will provide resources and guidance that address the following:

- developmentally appropriate education and resources;
- social media usage and content;
- implementation of best practices;
- resources that support differing county and school sizes, demographics, etc., for implementation strategies;
- strategies for dealing with disclosures of sexual abuse;
- processes to include community shareholders and inclusion of family voice; and
- offender dynamics and child-on-child scenarios.

Standards, resources, and protocols for local crisis response will be provided to school systems and are posted on the WVDE website.

### **Section 6. Preventing Child Sexual Abuse**

WVDE has established standards for Preventing Child Sexual Abuse (PCSA) training requirements of all public school employees focused on developing skills, knowledge, and capabilities related to preventing child sexual abuse and recognizing and responding to suspected abuse and neglect.

The required PCSA training shall include comprehensive instruction and information to better equip schools and their employees to recognize and prevent child sexual abuse, including:

- recognizing sexually offensive behaviors in adults, questionable behaviors such as boundary violations, and signs in adults that might indicate they pose a sexual risk to children;
- recognizing, and appropriately responding to, sexually inappropriate, coercive, or abusive behaviors among children and youth served by schools;
- recognizing behaviors and verbal cues that might indicate a child or youth has been a victim of abuse or neglect;
- supporting the healthy development of children and youth and the building of protective factors to mitigate against their sexual victimization by adults or peers;
- recognizing and appropriately responding to student infatuations and flirtations with adults in schools;
- recognizing appropriate and inappropriate social media usage by adults and children;
- providing consistent and standard protocols for responding to disclosures of sexual abuse or reports of boundary-violating behaviors by adults or children in a supportive and appropriate manner which meet mandated reporting requirements;
- providing adequate understanding of the age-appropriate, comprehensive, evidence-informed child sexual abuse prevention education which will be offered to their students; and
- recognizing effects of Adverse Childhood Experiences (ACEs) and providing trauma-informed care.

Public school employees are required to complete a PCSA training. The training shall be at least a cumulative four hours of instruction on the elements identified in this section and shall occur during non-instructional time. Training will not be assigned during teachers' planning time. A skills renewal training is required every two years thereafter. The mode of delivery for the trainings may include in-person or e-learning instruction and may include a series of trainings or modules. E-learning modules are available on the WVDE website and cover the required standards and certificates of satisfactory completion. Should the county boards of education choose to provide training through another mode of delivery, the standards stated above shall be covered, and the county boards of education shall provide the WVBE with a list of employees who have completed the required training. The WVBE shall provide certificates of satisfactory completion for the employee and the employer documenting that the employee completed the required training. Counties are required to track and monitor the skills renewal training for their respective employees.

### **Section 7. Eating Disorders and Self-Harm Information**

Children in grades 5-12 shall receive information regarding self-harm and eating disorder signs, prevention, and treatment at least once per academic school year.

The information may be obtained from the West Virginia Bureau for Behavioral Health and Health Facilities (Bureau), a licensed healthcare provider, or from commercially developed awareness and prevention training programs for the awareness, treatment resources, and prevention of self-harm behavior and eating disorders approved by the WVBE in consultation with the Bureau to assure the accuracy and appropriateness of the information.

### **Section 8. Preventing Eating Disorders and Self-Harm**

County boards of education shall provide routine education of all professional educators, including principals and administrators, and those service personnel having direct contact with students on warning signs and resources to assist in self-harm behavior and eating disorder awareness, prevention, and treatment under guidelines established by the WVBE. The education may be accomplished through self-review of materials and resources approved by the WVBE.

The required training shall include instruction and information to better equip schools and their employees, including how to:

- recognize warning signs of self-harm behaviors and eating disorders that can lead to serious health issues and death;
- support the healthy development of students by learning how to appropriately respond to or refer a student who exhibits warning signs of self-harm or eating disorders; and
- provide consistent and standard protocols for responding to disclosures or discovery of self-harm or an eating disorder.

All public school employees shall complete the required training every three years.

### **Section 9. Dress Codes Requiring School Uniforms for Students**

County boards of education may implement a dress code requiring students to wear school uniforms. The uniforms may be required by the county board of education for either the entire county or for certain schools within the county.

## 126CSR99

County boards of education considering the option of adopting a dress code requiring the wearing of school uniforms shall create an advisory committee consisting of parents or guardians, school employees, and students. The advisory committee shall consider whether the county board of education should adopt a dress code requiring school uniforms for students in the county or for certain schools within the county. If the advisory committee recommends to the county board of education a dress code requiring school uniforms, then the county board of education may adopt a dress code requiring school uniforms for students. The advisory committee shall make recommendations on methods of paying for the school uniforms. However, nothing in this policy shall require any level of funding from the Legislature, state, or county boards of education, or any other agency of the government.

This policy does not require county boards of education to adopt dress codes requiring students to wear school uniforms nor prevent a county board of education from adopting a dress code policy.

**Chapter 2**  
**INAPPROPRIATE BEHAVIOR AND**  
**MEANINGFUL INTERVENTIONS AND CONSEQUENCES**

**Section 1. Addressing Inappropriate Behavior with Meaningful Interventions and Consequences**

The purpose of this policy is to provide schools with guidance that creates and ensures an orderly and safe environment that is conducive to teaching and learning for all. All interventions and consequences are in effect on all school property and at all school-sanctioned events, including extracurricular and co-curricular activities. Each county will implement proactive, preventative, and evidence-based practices utilizing a MTSS framework, outline investigatory and reporting procedures, and delineate meaningful interventions and consequences in response to inappropriate behavior. Schools will provide explicit instruction on expected behaviors, model and reteach expectations when needed, and provide feedback to maximize the probability of student success in all school settings, including extracurricular, co-curricular, and school-sanctioned events.

This policy defines disciplinary levels and provides definitions for common inappropriate student behaviors. County policies may provide additional guidance in the implementation and classification for specific offenses and/or levels provided the treatment of the inappropriate behavior is consistent with W. Va. Code.

County and school policies should identify appropriate and meaningful interventions and consequences. The interventions and consequences in this policy serve as examples, with the exception of Level 4 offenses. It is not a requirement that all schools offer every intervention and consequence listed in this policy. Through a MTSS framework, school administrators and staff should leverage available school and community resources to provide appropriate evidence-based intervention strategies designed improve student behavior, maximize student attendance, and increase student engagement.

The purpose of interventions is to support, model, and/or teach appropriate behavior to maximize the probability of student success and decrease the likelihood of continued inappropriate behavior. Interventions should be used to reinforce expectations related to school rules and county policies regarding student behavior.

The purpose of consequences is to provide responses to inappropriate behavior that assist in keeping a school safe and orderly.

Sample interventions and consequences can be found in Appendix A. It is the school principal's responsibility to appropriately determine which intervention or consequence is necessary for each behavior and to ensure it is documented appropriately in the West Virginia Education Information System (WVEIS). Each discipline referral entered into WVEIS that deems an administrative response, shall, at minimum, include a documented intervention.

Exclusionary practices can have a direct impact on student academic achievement and schools/counties have a responsibility to ensure discipline practices are fair, equitable, and consistent. Therefore at least annually each county board of education shall publicly present a report of the previous year's certified discipline data at a regularly scheduled county board of education meeting. The report shall be comprised of exclusionary practices (in-school and out-of-school suspension) throughout the county and shall not

include any subgroup with less than 20 students to ensure student data privacy. At a minimum the report shall include:

- total count of students by federally identified subgroup;
- total count of students who were not referred for discipline by subgroup;
- total count of students who were referred for discipline but not suspended by subgroup;
- total count of suspensions by discipline level and for each subgroup;
- total days of suspension for the county and for each subgroup; and
- average number of days suspended by subgroup of each discipline referral level.

Discipline matrices can be used as a tool to ensure fair and consistent implementation of a school’s discipline plan. However, the principal shall always consider the individual details and specifics of a student’s needs in ensuring appropriate implementation. If a matrix is used, the principal shall retain the right to amend and change an intervention or consequence, as deemed necessary.

Out-of-school suspension strategies should be considered when appropriate evidence-based interventions and consequences have not proven to correct the behavior. Out-of-school suspension shall never deny students access to instructional material and information necessary to maintain their academic progress. The determination of interventions and consequences is at the discretion of the school administrator, with input considered from teachers/service personnel/support staff. W. Va. Code §18A-5-1 requires that the principal shall suspend a student who commits a behavior classified as Level 4 in this policy. Level 3 and 4 behaviors are to be referred directly to the appropriate administrator because of the serious and/or unlawful nature of the misconduct.

Any student suspended or expelled from school is also suspended from extracurricular activities for the duration of the out-of-school suspension or expulsion.

When administering interventions and consequences, the county is required to determine if a student warrants protection under Public Law 108-446, Individuals with Disabilities Education Improvement Act of 2004 (IDEA), W. Va. 126CSR16, Policy 2419, Regulations for the Education of Students with Exceptionalities (Policy 2419), and/or Section 504 (504 Plan) of the Rehabilitation Act of 1973.

**Section 2. Inappropriate Behavior Levels**

The following behaviors have been assigned levels based on the nature of severity. It is important for the principal to evaluate behaviors with a holistic and developmentally appropriate approach. The principal may change a Level 1, 2, or 3 behavior level in WVEIS, if the circumstances dictate it. If a behavior level is changed, the principal shall document in the WVEIS discipline referral the reason as to why the level was changed. Level 4 behaviors are defined in W. Va. Code §18A-5-1 and shall not be changed.

**LEVEL 1:** Minimally Disruptive Behaviors disrupt the educational process and the orderly operations of the school but do not pose a direct danger to self or others.

### **Section 3. Classification of Persistently Dangerous Schools**

The following criteria are set forth to determine whether a school will be classified as a Persistently Dangerous School. Data indicating the number of substantiated inappropriate behaviors will be collected using WVEIS in order to identify and classify a school as persistently dangerous. A West Virginia public school will be classified as a Persistently Dangerous School on or before August 1 of each year if the school has for two consecutive years substantiated Level 4 behaviors that exceed five percent of the total number of students enrolled in the school based on the school's second month enrollment:

- battery on a school employee as defined in W. Va. Code §61-2-15;
- commission of an act that would constitute a felony under the laws of the state on the premises of an educational facility, at a school-sponsored function, or on a school bus;
- possession of a firearm or deadly weapon as defined in W. Va. Code §61-7-2 on the premises of an educational facility, at a school-sponsored function, or on a school bus; or
- sale of a narcotic drug as defined in W. Va. Code §60A-1-101 on the premises of an educational facility, at a school-sponsored function, or on a school bus.

WVDE Requirements Related to Persistently Dangerous Schools:

- provide targeted technical assistance to any school that has for two consecutive years substantiated Level 4 behaviors that exceed five percent of the total number of students enrolled in the school, based on the school's second month enrollment.

A student attending a school identified as persistently dangerous or who becomes a victim of a violent criminal offense, as determined by state law, while in or on the grounds of a public school that the student attends or while attending a school-sponsored activity, shall be allowed to attend an alternative setting at his or her request as determined by the county school system.

### **Section 4. Use of Physical Punishment Prohibited**

W. Va. Code §18A-5-1(e) prohibits school employees from using corporal (bodily) punishment on any student. No physical punishment of any kind can be inflicted upon a student. This includes:

- hitting or striking a student on their physical person;
- requiring physical activity as a punishment (this does not apply to physical activity within the structure and context of extracurricular activities);
- use of noxious stimuli (e.g., pepper spray), denial of food or water, or other negative physical actions to control behavior; and
- seclusion - a removal in which a student is left unsupervised in any space as an intervention or consequence to inappropriate behavior.

### **Section 5. Use of Restraint**

Restraint, with reasonable force, may be used to prevent a student from hurting himself/herself or any other person or property. Behavior interventions and support practices must be implemented in such a way as to protect the health and safety of the student and others. When the use of physical restraint is necessary, the following guidelines must be followed:

- shall be limited to the use of such reasonable force as is necessary to address the emergency;
- shall not restrict breathing (e.g. prone restraint); place pressure or weight on the chest, lungs, sternum, diaphragm, back, neck, or throat; or cause physical harm;

**126CSR99**

- shall be discontinued at the point at which the emergency no longer exists;
- shall be implemented in such a way as to protect the health and safety of the student and others; and
- shall not deprive the student of basic human necessities.

Appropriate (intended use) utilization of mechanical restraints, such as seat belts or feeding tables, when applied for their intended purpose is not prohibited. The application of mechanical restraint is prohibited as an intervention or consequence for inappropriate behavior.

A core team of personnel in each school, including an administrator designee and any general or special education personnel likely to use restraint, must be trained annually in the use of:

- nationally recognized restraint process, and
- current professionally accepted practices and standards regarding behavior interventions and supports including prevention and de-escalation techniques.

Any non-trained personnel called upon to use restraint in an emergency must receive training within 30 days following the use of restraint if the principal determines the situation is likely to reoccur.

Comprehensive documentation and immediate notification of restraint usage to both school administration and the parent or guardian of the student is required.

<b>Time Requirement</b>	<b>Documentation/Notification</b>
Within one hour following the use of restraint	The principal/designee must be provided verbal and written description of the restraint process used on a given student.
Same day	A good faith effort shall be made to verbally notify the parent or guardian of the restraint process used.
Within one school day	<p>Written notification of the use of restraint must be:</p> <ul style="list-style-type: none"> <li>• provided to the parent or guardian, and</li> <li>• included in the student’s official school record.</li> </ul> <p>The written notification includes:</p> <ul style="list-style-type: none"> <li>• name of the student;</li> <li>• name of the staff member(s) administering the restraint;</li> <li>• date of the restraint and the time the restraint began and ended;</li> <li>• location of the restraint;</li> <li>• narrative that describes antecedents, triggers, problem behavior(s), rationale for application of the restraint, and the efforts made to de-escalate the situation and alternatives to restraint that were attempted; and</li> <li>• documentation of all parental/guardian contact and notification efforts.</li> </ul> <p>This notification must be available to determine if the student’s behavior impacts the student’s learning and/or the creation of or revision to a behavior plan.</p>

## **Section 6. Collaboration with Law Enforcement**

Police can enter schools if they suspect a crime has been committed, have a warrant for an arrest or search, or if their assistance has been requested by school officials. It is the duty of the school officials, teachers, and students to cooperate with the police and each other to ensure that the rights of all involved persons are respected.

Prevention Resource Officer (PRO)/School Resource Officers (SRO). PROs/SROs are certified police officers, working within a public school. The PRO/SRO duties, salary, and responsibilities should be determined through an agreement with the county board of education and the authorized law enforcement agency. The principal is the immediate supervisor while the PRO/SRO officer is present in the school. There may be a time during the course of PRO/SRO duties when the officer's position as law enforcement would take precedence, such as intervening in or investigating criminal activity.

Other Law Enforcement Officer Conducting an Investigation in the School. When a student is questioned by law enforcement or by school officials in the presence of law enforcement, the school administration and law enforcement must cooperate to ensure the privacy of the student is protected. It is the law enforcement officer's responsibility to ensure the student's constitutional rights are not violated and to determine if the student's parent or guardian, or lawyer should be contacted prior to questioning. The law enforcement officer must also determine when the use of restraints is necessary to control an unruly student to prevent the student from harming him/herself or others during questioning.

W. Va. Code §49-4-701 specifies that statements made by a student under the age of fourteen, while being questioned by law enforcement officials, cannot be used in a court proceeding unless his/her lawyer is present. Statements made by students who are fourteen or fifteen years old cannot be used in a court proceeding unless their lawyers are present or a parent or guardian is present and, the parent or guardian has been informed of the student's rights.

**Chapter 3**  
**PROCEDURES FOR ADDRESSING ALLEGATIONS**  
**OF INAPPROPRIATE BEHAVIORS**

**Section 1. Procedures for Reporting Complaints of Inappropriate Behavior**

School employees are responsible for assuring a safe and supportive school climate and culture. When incidents of inappropriate behavior are witnessed by school staff, the behavior shall be addressed consistently as outlined in this policy.

Inappropriate behaviors observed by students or guests must be reported to the appropriate personnel for action to be taken according to county policy.

County boards of education shall develop and publicize procedures to assure that any person who believes he or she is the victim of or witness to a violation of Policy 4373 has an identified, easily accessible mechanism to report the alleged acts immediately to the appropriate official(s) designated by the county. These procedures do not deny the right of any individual to pursue other avenues of recourse which may include filing charges with the West Virginia Human Rights Commission, initiating civil action, or seeking redress under the state criminal statutes and/or federal law, including Title IX.

County boards of education shall develop and publicize appropriate procedures for investigating, reporting, responding, and determining consequences for the failure of an employee to appropriately respond to violations of Policy 4373, in accordance with W. Va. 126CSR142, Policy 5310, Performance Evaluation of School Personnel, in a manner that promotes understanding and respect.

County boards of education and the WVDE shall develop and publicize procedures to assure that any person who believes he or she has been the victim or a witness of religious, ethnic, racial or sexual harassment, or violence by a student, teacher, administrator, or other school personnel toward a student, teacher, administrator, or other school personnel has the identified, easily accessible mechanism to report the alleged acts immediately to an appropriate official(s) designated in county policy. These procedures do not deny the right of any individual to pursue other avenues of recourse which may include filing charges with the West Virginia Human Rights Commission, initiating civil action, or seeking redress under the state criminal statutes and/or federal law, including Title IX.

All alleged incidents of harassment or violence observed by faculty or staff must be reported to the appropriate official(s) and appropriate action should be taken as specified in Section 2 of this chapter.

**Section 2. Procedures for Investigating Allegations of Inappropriate Behavior**

The county designee shall immediately undertake or authorize an investigation upon receipt of a report or complaint. The investigation may be conducted by school/county officials, or by a third party designated by the county school system.

The investigation must, at a minimum, consist of personal interviews with the complainant, the individual(s) against whom the complaint is filed, and others who may have knowledge of the alleged incident(s) or circumstances within the complaint. The investigation may also consist of any other methods and review of circumstances deemed pertinent by the investigator.

## 126CSR99

When a student is to be interviewed pursuant to a Level 3 or 4 behavior, a reasonable effort shall be made to contact the student's parent or guardian, in a timely manner and invite them to be present during the interview, provided such notification does not compromise overall school/student safety. Parental/guardian notification is encouraged at Level 2 and discretionary at Level 1.

The principal shall:

- determine whether the alleged conduct constitutes a violation of this policy;
- take immediate and reasonable steps to protect the complainant, students, teachers, administrators, or other personnel pending completion of an investigation;
- assure that the investigation will be completed as soon as practicable but no later than 10 school days following the reported violation; and
- beyond the initial response, assure educational services to all students involved are not disrupted during the investigative process.

Upon completion of the investigation:

- a written WVEIS report shall be provided to the principal which includes a determination of whether the allegations have been substantiated as factual and whether they appear to be violations of this policy;
- the report shall be recorded and filed at the county/school level as determined in county policy; and
- a written notice of the conclusion of the investigation will be reported to the complainant or his/her legal guardian by the principal or his/her designee, but the report itself will not be shared with the complainant or his/her legal guardian.

Confidentiality of the filing of complaints, the identity of subjects and witnesses, and any action taken as a result of such complaint is essential to the effectiveness of this policy. Only those individuals necessary for the investigation and resolution of the complaint shall be provided information gathered in the investigation. A violation of confidentiality may itself be grounds for disciplinary action.

County boards of education and the WVDE shall develop procedures following the above guidelines to investigate complaints of religious/ethnic, racial or sexual harassment or violence by a student, teacher, administrator or other school personnel of the county board of education. For the WVDE, the State Superintendent of Schools shall take the place of the principal.

### **Section 3. Procedures to Prevent Reprisal**

The county board of education shall develop and publicize discipline procedures to take appropriate action against any student or employee who retaliates against any person who reports alleged violations or any person who testifies, assists, or participates in an investigation, or who testifies, assists, or participates in a proceeding or hearing relating to such violations. Retaliation includes, but is not limited to, any form of intimidation, reprisal, or harassment. Likewise, the county board of education shall develop a disciplinary process to take appropriate action against any student, administrator, or other school employee who falsely reports violations of this policy.

**Chapter 4**  
**PROCEDURES FOR TAKING ACTION ON**  
**SUBSTANTIATED INAPPROPRIATE BEHAVIORS**

**Section 1. Interventions and Consequences of Inappropriate Behavior**

Inappropriate behavior should be addressed with meaningful interventions and consequences that strive to improve future behavior using a MTSS framework. School administrators and staff shall leverage all appropriate school and community resources to provide appropriate evidence-based interventions designed to maximize student attendance and engagement. Out-of-school suspension strategies shall never deny a student access to instructional material and information necessary to maintain academic progress. Out-of-school suspension is not a recommended consequence or intervention for minimally disruptive Level 1 and 2 behaviors; however, the determination of interventions and consequences is at the discretion of the school administrator, with input considered from teachers/service personnel, for Levels 1, 2, and 3. Specific Level 3 behaviors mentioned in W. Va. Code shall be referred directly to the appropriate administrator because of the serious/unlawful nature of the misconduct.

In determining the appropriate intervention and/or consequence in response to a Level 1, 2, or 3 behavior, the principal, county superintendent, and/or county board of education should consider:

- the surrounding circumstances;
- the intent of the behavior;
- past incidents, continuing, or escalating patterns of behavior; and
- the relationships between the parties involved and the context in which the alleged incidents occurred.

**Section 2. Guidelines for Specific Responses to Inappropriate Behavior**

Alternatives to Exclusion. When designing or adopting discipline plans, county boards of education and schools shall also consider and adopt alternatives to exclusion. Because student academic progress can be negatively impacted by exclusionary practices, processes should be considered that provide students support that are designed to decrease the chance of repeated behavior and increase the chance of academic success such as:

- restorative practices;
- mentoring;
- mental health supports;
- civil citations;
- academic and behavior supports;
- behavior contracts;
- community service;
- school-wide Positive Behavior Supports and Interventions (PBIS); and
- community health.

Exclusion. According to W. Va. Code §18A-5-1, a student may be removed from a classroom or school bus. Requirements for re-entry into the classroom and/or bus are outlined in the code section.

Bus operators must follow the guidelines outlined in W. Va. 126CSR92, Policy 4336, West Virginia School

Bus Transportation Regulations, Procedures, and Specifications for the Design and Equipment of Schools Buses, and Policy 2419. When the bus operator excludes a student from the school bus, the bus operator shall notify the student and the student's principal. The principal/designee shall notify the student's parent or guardian. All students shall be transported until the parent or guardian has been properly notified of the exclusion. The principal/designee shall notify the parent or guardian when the child may resume riding the bus. If the inappropriate behavior persists, the student may have his/her rights to transportation services suspended for the remainder of the year, to the extent feasible.

Suspension. The purpose of suspension is to protect the students, school personnel and property, the educational environment, and the orderly process of the school. Suspension is considered a temporary solution to an inappropriate behavior until the problem that caused the suspension is corrected. The length of a suspension should be short, usually one to three school days, but may not exceed 10 school days.

Suspension typically takes one of two forms:

- In-School Suspension. Student is temporarily removed from the classroom(s) for disciplinary reasons but remains under the direct supervision of school personnel and continues to receive instructional support. Direct supervision means school personnel are physically in the same location as the student(s) under their supervision. Settings may include other locations within the school building or removal to another school, such as an alternative school, provided the student remains under direct supervision of school personnel.
- Out-of-School Suspension. Student is temporarily removed from the school for disciplinary reasons to another setting pursuant to W. Va. Code §18A-5-1a (e.g., home, community setting). This includes both removals in which no Individual Education Plan (IEP) services are provided because the removal is 10 days or less, as well as removals in which the student continues to receive services according to his/her IEP. The student is not under direct supervision of school personnel as defined under in-school suspension.

A student is entitled to an informal hearing when faced with an out-of-school suspension of 10 days or less. At this hearing, the principal must explain why the student is being suspended, and the student must be given the opportunity to present reasons why she/he should not be suspended. However, a student whose conduct is detrimental to the safety of the school may be suspended immediately and a hearing held as soon as practical after the suspension. Other procedures the school must follow when dealing with out-of-school suspensions are outlined in W. Va. Code §18A-5-1 and §18A-5-1a and include:

- parent or guardian must be notified promptly in all cases of suspension;
- county superintendent or designee must be notified, preferably in writing, of the time and conditions pertaining to the suspension;
- student may not participate in any school-sponsored activities and is not permitted on school grounds during the period of suspension; or
- student may not be suspended from school solely for not attending class (W. Va. 126CSR81, Policy 4110, Attendance).

An out-of-school suspension of more than 10 days requires a formal hearing before the county board of education. The school and county must adhere to the following procedures as outlined in W. Va. Code §§18A-5-1, 18A-5-1a, and 18A-5-1b when dealing with suspensions of more than 10 days:

- parents or guardian must be informed in writing of the charges against their child, including a summary of the evidence upon which the charges are based;

## 126CSR99

- upon the student’s parent or guardian’s request, a formal hearing must be scheduled before the county board of education;
- students are entitled to be represented or advised during the proceedings by a person or persons of their choosing, including legal counsel; and
- students are entitled to be given reasonable time to prepare for the hearing.

Expulsion. The county superintendent, upon recommendation by the principal, may recommend that a county board of education expel a student from school if the student’s conduct is judged to be detrimental to the progress and general conduct of the school. In all cases involving expulsion, the student is entitled to formal due process procedures. These procedures are outlined in W. Va. Code §18A-5-1 and §18A-5-1a. In expulsions involving students with an IEP or 504 Plan, a manifestation determination must be completed prior to the expulsion hearing, pursuant to Policy 2419 and IDEA.

W. Va. Code §18A-5-1 and §18A-5-1a requires mandatory out-of-school suspension by the principal and mandatory expulsion for a period of not less than 12 consecutive months by the county board of education for: possession of a deadly weapon, battery of a school employee, or sale of a narcotic drug. Procedures that must be followed when dealing with an expulsion include:

- the student and parent or guardian must be given a written statement of the specific charges against the student;
- the county board of education must hold a hearing regarding the recommended expulsion;
- the student and parent or guardian must be given a written notice of the time and place of the county board of education hearing at which the expulsion will be considered. This notice must be given far enough in advance for the student to have time to prepare an adequate defense against the charges;
- the student and parent or guardian have the right to be present at the county board of education hearing and to defend against the charges;
- the student has the right to be represented by an attorney at the hearing at his/her own expense;
- the student has the right to present witnesses on his/her behalf, to hear the testimony of witnesses against him/her, and to question the witnesses against him/her;
- if the board of education decides that the charges against a student do not warrant his/her expulsion from school, the student may remain in school or return to school without being subjected to punishment or harassment;
- in all expulsion hearings, facts shall be found by a preponderance of the evidence;
- expulsion by the board of education is final. However, if a student or parent or guardian believes that the student was not given procedural due process, he/she may appeal to the State Superintendent of Schools, within 10 days of receiving the expulsion decision. If the State Superintendent of Schools finds that the board's decision to expel the student was properly made, then the expulsion will stand unless overturned by a court.
- If the State Superintendent of Schools finds the board’s decision lacked procedural due process, the board shall ensure all due process procedures are provided and readminister the expulsion hearing within 10 days of receiving the decision.

### **Section 3. Considerations for Transferring Students with Expulsions**

Students who have been suspended or expelled from a public or private school in West Virginia or another state, currently residing within the county, may not be denied enrollment in a county school system unless determined to be a “dangerous student” under the procedures set forth in W. Va. Code §18A-5-1a.

Pursuant to W. Va. Code §18A-1-1(j) "dangerous student" means a student who is substantially likely to cause serious bodily injury to himself, herself, or another individual within that student's educational environment, which may include any alternative education environment, as evidenced by a pattern or series of violent behavior exhibited by the student, and documented in writing by the school, with the documentation provided to the student and parent or guardian at the time of any offense. County superintendents may, in their discretion, determine the appropriate educational placement, including alternative education services, for these students (State Superintendent of Schools' Interpretation of January 26, 2007).

#### **Section 4. Considerations for Students with Disabilities, Students not yet Determined Eligible for Special Education, and Students with 504 Plans**

Refer to Policy 2419, Chapter 7 for specific guidelines related to protections that are warranted for students with disabilities, students not yet determined eligible for special education (i.e., students currently engaged in the eligibility process beginning with a Student Assistance Team referral), or students with 504 Plans.

#### **Section 5. Procedures for Reporting Action on Substantiated Incidents**

Schools shall accurately track incidents of inappropriate behavior and interventions/consequences in order to utilize data for school climate/culture improvement efforts and to create documentation to support actions taken to intervene in inappropriate behavior patterns. The WVEIS provides schools with the platform to report all incidents of inappropriate behavior at the classroom level and above. The primary value of this data rests at the school and county level and is necessary for development and monitoring of Policy 4373. All inappropriate behaviors as described in Chapter 2, Section 2, Levels 1, 2, 3, and 4 shall be reported through:

- teacher-level documentation of inappropriate behavior leading to interventions, consequences, and/or referrals to the principal;
- Principal-level WVEIS data entry of teacher level documentation and administrative disciplinary actions. This data shall be entered by the principal and/or other authorized staff; or
- county superintendent-level WVEIS data entry of county board of education actions resulting from expulsion hearings. This data shall be entered by the county superintendent and/or other authorized staff.

Incidents of inappropriate behaviors reported into WVEIS in accordance with this policy will be used by the WVDE to comply with federal and state reporting requirements. Schools are responsible for timely, complete, and accurate reporting of inappropriate behaviors and disciplinary actions. Counties are responsible for monitoring accuracy of school data in accordance with W. Va. 126CSR94, Policy 4350, Procedures for the Collection, Maintenance, and Disclosure of Student Data.

#### **Section 6. Conflict Resolution Process**

If someone believes that a county board of education has violated the procedural rights set forth in this policy, the person may follow the appeal procedures outlined in W. Va. 126CSR188, Policy 7211, Conflict Resolution Process for Citizens (Policy 7211). The procedures set forth in this policy are not deemed to be a precondition to seeking relief in some other forum, nor do they address personal complaints against a school employee.

**Chapter 5**  
**ALTERNATIVE EDUCATION REQUIREMENTS FOR DISRUPTIVE STUDENTS**

W. Va. Code §18-5-19 provides for the creation of alternative education programs to allow for the provision of a free and appropriate education to students whose disruptive behavior has caused them to be removed from the regular classroom/school setting. Nothing in this manual precludes county boards of education from operating alternative education programs for non-disruptive students. The guidelines in this manual apply solely to alternative education programs for disruptive students. The State Superintendent of School's approval of the county alternative education policies and procedures is required for authorization to operate an alternative education program under these regulations.

Alternative education program is a temporarily authorized departure from the regular school program designed to provide educational and social development for students whose disruptive behavior places them at risk of not succeeding in the traditional school structures and in adult life without positive interventions. These programs provide a safe and orderly learning environment for the education of all students in West Virginia public schools and meet the educational needs of disruptive students.

Alternative education programs for disruptive students encompass a range of program options such as:

- in-school suspension;
- a separate part-time or full-time alternative education classroom;
- a school-within-a-school;
- a school at an alternative site;
- a virtual setting;
- a combination in-person/virtual setting;
- an afterschool class/night school program; or
- a combination academic/work-based program.

County boards of education shall have flexibility in developing the type or types of alternative education program options needed to meet the needs of disruptive students in the county. County boards of education may request a waiver of WVBE policies and regulations in the development and operation of alternative education programs. Such a waiver request does not have to be submitted in accordance with the procedures for requesting waivers stipulated under W. Va. Code §18-5A-3, but may be submitted directly to the State Superintendent of Schools.

Program flexibility does not extend to modifying the provisions of Policy 2419 in providing alternative education programs for students with exceptionalities or Section 504 of the Rehabilitation Act of 1973.

**Section 1. Policies and Procedure**

County boards of education policies and procedures shall include, but are not limited to the:

- goals of the program;
- eligibility criteria and process for placement of students in the program as determined by Student Assistance Team as defined by W. Va. 126CSR42, Policy 2510, Assuring the Quality of Education: Regulations for Education Programs (Policy 2510);
- involvement of parent or guardian and community agencies;
- length and time of day the after-hours/night school program operates, if applicable;
- plan for awarding of grades and/or credits;

## 126CSR99

- behavioral management plan as an alternative to the county's discipline policy, if applicable;
- staffing plan, personnel qualifications, and class size limits;
- criteria for completion of the alternative education program or re-entry into general education; and
- performance measures and process for program evaluation.

### Section 2. Eligibility and Placement

A student may be placed in alternative education programs for:

- violations of the W. Va. Code §18A-5-1a;
- repeated violations of the county's discipline policy following documented multiple behavioral interventions by the Student Assistance Team at the referring school; or
- continuation of educational services during periods of suspension.
- A student returning to a West Virginia public school from an in-state or out-of-state placement does not automatically meet the eligibility for alternative education for disruptive students. West Virginia schools are prohibited from automatically placing these students in alternative education for disruptive students based solely on the fact that they are returning from placement.

A student who has been expelled must be placed in an alternative education program unless found to be a “dangerous student” under the procedures set forth in W. Va. Code §18A-5-1a.

A student who has been suspended or expelled from a public or private school in West Virginia or another state, currently residing within the county, may not be denied enrollment unless determined to be a “dangerous student” under the procedures set forth in W. Va. Code §18A-5-1a.

Upon placement, the Student Assistant Team shall develop a student's written plan to address academic, behavioral, social-emotional, and mental health needs as appropriate criteria for re-entry to the regular school program, and provisions for periodic review of the student's progress at least on an annual basis. The team for all students with disabilities shall be the IEP team and the written plan shall be the IEP.

### Section 3. County Alternative Education Requirements

Curriculum. The curriculum will be based upon state-approved standards and include a component for teaching responsible behavior in a climate/culture conducive to teaching and learning.

Instruction. The instruction shall be personalized in a developmentally and age appropriate delivery.

A Temporary Authorization valid for one year shall be granted to the successful candidate for the alternative education program position. The employing county superintendent must verify that the applicant possesses the required competencies. The Temporary Authorization may be renewed each year based on the applicant's continued employment in an alternative education program.

Personnel Selection Criteria. A certified classroom teacher shall be selected on the basis of the teacher's demonstration of competence in meeting the following standards:

- ability to effect positive behavior in disruptive students;
- effective leadership and/or mentoring skills in working with youth;
- successful experience in providing education to troubled or disruptive youth;
- specialized training or experience in non-traditional programs; and
- specialized training in behavior management skills.

#### **Section 4. Optional Alternative Education Settings**

Day-School Programs. Absent expulsion, a student attending an alternative education day school program shall have the opportunity to receive a full-time instructional program and full instructional day during regular school hours. The county board of education must provide transportation for alternative education students in Day School Programs ensuring equal access for all public school students to access the school day.

After-Hours/Night School Classes. County boards of education are authorized to provide alternative education programs after regular school hours for expelled students and for students who have repeated serious violations of the county's discipline policy following documented multiple behavioral interventions and out-of-school suspensions. After-hour/night school programs shall include the provision of academic coursework and development of social skills/and appropriate behavior. Unless otherwise required by law, regulation, or court order, transportation services for such programs are at the discretion of the county board of education.

Home-Based Programs for Disruptive Students. County boards of education may provide home-based programs solely for students expelled under the Productive and Safe Schools Act (W. Va. Code §18A-5-1a) or for disruptive students who meet the eligibility criteria for home/hospital instruction under Policy 2510.

Program Evaluation. County boards of education shall conduct an annual evaluation of the effectiveness of the programs. The evaluation shall focus upon the impact on student performance and results using

## 126CSR99

indicators such as:

- academic gains;
- reduction in dropout rates;
- reduction in incidences requiring disciplinary action;
- improvement in attendance rates;
- rates of successful program completion and return to the regular school program;
- rates of successful completion of career and technical training programs;
- rates of successful completion of high school graduation or attainment of a high school equivalency diploma; and
- rates of successful job placement and job retention.

The WVDE shall review compliance with alternative education requirements and the effectiveness of alternative education programs through monitoring and review of the application received annually. The alternative education program shall be evaluated on the basis of its stated goals and the provisions of this policy.

The selection of appropriate interventions and consequences for substance abuse must be considered very carefully depending upon the severity of the behavior and potential safety concern for others in the school. The first action must be to conference with the parent or guardian and appropriate law enforcement representatives in an effort to direct the student to appropriate addiction services. Referral to tobacco cessation services/treatment and substance abuse treatment services shall be a priority intervention strategy for these behaviors.

<b>§WV Manual for Expected Behavior in Safe and Supportive Schools, Chapter 2 Inappropriate Behavior and Meaningful Interventions and Consequences</b>				
2024-05-01 10:25:55	Ron Branch Assistant Superintendent Berkeley County Schools Martinsburg WV	1. The paragraph outlining out of school suspensions does not match the introductory paragraph to Chapter 4 in regard to out of school suspensions. 2. Thank you for defining behaviors by levels and clarifying where vapes fit into the levels. 3. The WVBE should assure that the data necessary for the the discipline report is easily accessible in WVEIS 2.0 and provide training to county representatives on how to access this data.	N  A/S  A/S	Language will remain in chapter 2.
2024-05-16 11:23:28	Richard Duncan Superintendent Roane County Schools Reedy WV	Section 1: The paragraph on discipline matrices is overreaching. If a county board adopts a consistent disciplinary approach through local policy, this paragraph would overrule that through the "principal shall retain..." language. Principals should be given reasonable discretion but not the right to overrule county board policy.  The paragraph starting with "Sample interventions and consequences..." then suffers from the same issue and an additional one. A principal could designate an assistant or associate principal to determine which intervention is necessary, so this is lacking the "or designee" language. It also would seem to give the principal authority that could supersede a local policy.  Section 2:	N          N	<ul style="list-style-type: none"> <li>This section refers to school discipline plans not county adopted policies. County policies still can overrule.</li> <li>Stakeholders discussed this extensively, counties can assign duties in positions and nothing would prohibit an assistant principal from entering data or handling discipline as a school administrator. 		<p>Similar to the issues with Section 1, giving a principal the ability to change the level of the behavior really makes putting the behaviors in levels meaningless in the first place, and again would seem to give the principal authority that could supersede a local policy.</p> <p>The entire point of having a discipline policy is to be consistent and lay out clear expectations for behavior (thus the name change to "Expected Behavior in Safe and Supportive Schools" from a previous revision), but allowing inconsistency will undermine that.</p> <p>Additionally, the definitions of many of these behaviors make developmentally-appropriate labelling very difficult without relying on a "catch all" behavior like "Disruptive Conduct" or "Habitual Violation of School Rules or Policies," which lead to poor data quality.</p>	<p>N</p> <p>N</p> <p>N</p>	<p>not be overturned by a principal unless the policy allows for it.</p> <ul style="list-style-type: none"> <li>County Board of education can create policy to assign levels and nothing in this policy gives the principal authority over their board or superintendent.</li> </ul> <p>County boards of education are still required by law to adopt and implement discipline plans, nothing would prohibit a county policy from adopting a plan to be more stringent or more specific on a particular issue.</p>

		<p>I suggest putting back the “used sparingly” language, it is important to reflect that exclusionary discipline should be a last resort.</p> <p>The data from the WVDE and many other sources is clear that exclusionary practices have negative impacts and therefore, I suggest that instead of “Exclusionary practices can have,” “exclusionary practices have negative impacts”</p> <p>Section 2 Inappropriate Behavior Levels Level1: Minimally disruptive behaviors Disruptive Conduct – This definition continues to be very vague and subject to really widely varying application. Nationwide Black students are more likely than white students to be referred for disciplinary action for subjective infractions such as disruption or defiance compared to objective infractions such as tardiness or truancy; therefore it becomes even more important to have a very specific definition of these types of infractions.</p> <p>Inappropriate appearance – This is very broad and vague and could possibl infringe on students free speech rights and may lead to discrimination against certain groups of students. It would be more clear to simply refer back to the dress code.</p> <p>Level 2: Disruptive Conduct and Insubordination have the same problems as Level 1 in having very vague definitions. "Unintentionally aggressive conduct" - A more accurate definition might be reckless conduct and then include a definition of what it means to be reckless.</p> <p>This section lacks a definition of a threat and does not require it to be a "true threat," as defined by West Virginia code. I suggest adopting a definition of a threat to match that used in the West Virginia code.</p>	<p>N</p> <p>N</p> <p>n</p> <p>A/C</p> <p>A/C</p> <p>N</p>	<ul style="list-style-type: none"> <li>• Stakeholders supported the change to require interventions for each behavior in place of sparingly.</li> <li>• Stakeholders discussed and supported this change.</li> <li>• Stakeholders were supportive of this</li> <li>• This will provide clarification</li> <li>• This better fits with what stakeholders were describing and requesting.</li> <li>• Stakeholders were supportive of this language.</li> </ul>

		<p>For all the sections that mandate expulsion there is a lack of reference to IDEA and 2419 and the procedural safeguards that must be adhered to for students with disabilities. It is acknowledged that threats should be taken seriously when they are serious threats, but zero tolerance policies related to threats that are transient and not substantive unnecessarily exclude students from school. A suggested definition of “threat” could be a credible statement or action made with intent to harm someone that requires protective action. A threat in this context is not a false rumor, an expression of anger or frustration that is easily resolved with no intent to attack. Threat assessment should be mentioned as an alternative to exclusionary discipline. It would be helpful to explain how these work in conjunction with MTSS. While the overall policy focuses on creating a safe and supportive school climate, and recommends using exclusionary discipline sparingly, all the detail in the policy is with regard to exclusion and how to use it. This section on alternatives primarily contains a bullet pointed list of options with no preference or requirement for any particular one and no requirement to show how these have been attempted before turning to exclusionary policies.</p> <p>The section regarding bus transportation does not include an exception for those students whose IEPs require transportation.</p> <p>The policy does not express any preference for ISS over OSS or require that ISS be attempted first. 2024-05-27 11:24:27	Blaire L. Malkin Staff Attorney Mountain State Justice Charleston WV	Section 3 - This section still lacks clarity on the role of the PRO/SRO. It would be helpful to start with the definitions of what PRO/SRO role in the school is and ensure that students understand when they are acting in a law enforcement role and the consequences that may come from that. In general, it creates confusion when PRO/SRO are involved in questioning students for school related discipline incidents as they are not supposed to have a role in discipline.  Section 5 - Age Appropriate Body Safety Information It is important that this training material takes into account not only age but also ensures that there are materials that are appropriate for students with intellectual disabilities.
