Barbour	Students will be engaged in learning the skills they did not master during the school year. Students will be provided breakfast and lunch.	X											Students will have the flexibility to attend all day or half day. Transportation is provided from both ends of the county. Breakfast and lunch will be provided daily. An additional teacher will be added this year for support.			X		None (unless out of county student)	Course work to fulfill graduation requirements will be offered through Imagine Learning.	Course work to fulfill graduation requirements will be offered through Imagine Learning.
Berkeley	The Berkeley Heights location has two programs this summer. The first program is open for any student in grades K-2 for enrichment/intervention in grades K-2. These students will spend a half day working on ELA and Math skills. At that same location, we have invited kindergarten students that have fallen below the cut score on the iReady assessment. These students will be receiving interventions based on their scores. At Tuscarora Elementary, this is our extended school year program for special education students that are recommended to attend through their IEP. These students will receive services based on their IEP's. These students will be staying for a full day of services, 5 days a week. (it wouldn't let me check two boxes above).		X	X	X	X	X	At South Middle School we will be having our credit recovery program for students in grades 6-8. Students will be in school for 5 hours a day focusing on ELA and Math. At Tuscarora Elementary, this is our extended school year program for special education students that are recommended to attend through their IEP. These students will receive services based on their IEP's. These students will be staying for a full day of services, 5 days a week. (it wouldn't let me check two boxes above).	X	X			At South Middle, students will be receiving direct instruction in ELA and Math to recover credits from students not passing courses in ELA and Math. All other courses will be offered virtually for students to make up credits for not passing courses. Students may take courses in drivers ed, PE and health can be taken for initial credit. At Tuscarora Elementary, this is our extended school year program for special education students that are recommended to attend through their IEP. Boone	Energy Express is a comprehensive program designed to engage students in academic content areas while incorporating the arts, physical activity, and social and emotional supports.HB3035 identifies students who score below the cut score on their end-of-year diagnostic assessment. It offers targeted and intensive intervention to address students' deficit areas. Students will also participate in art, physical activity, STEAM activities, and other activities that promote social and emotional support.ESY - Students will work on critical goals listed on their IEPs in ELA, Math, Behavior, Life Skills, and Functional Skills.	X	X	X	X	X	X	This program will allow middle school students to receive academic remediation/enrichment in the areas of Math, ELA, and Reading. In this compacted curriculum, students will be using the Exact Path platform from Edmentum. Pre-tests will determine which areas each individual student needs help, and Exact Path will build an individualized curriculum for them, allowing for concentration only on specific skill areas that need improvement.ESY - Students will work on critical goals listed on their IEPs in ELA, Math, Behavior, Life Skills, and Functional Skills.		X	X	X	These programs will allow high school students to recover up to two credits (or four ½ credits) from previously failed subjects along with enrichment activities. In this condensed/compacted credit recovery curriculum, the student will be using the Courseware program through Edmentum. Pre-tests will determine which areas of a course must be successfully completed before the student can “recover” the credit. The enrichment program will integrate technology, core content, critical thinking, creativity, problem solving, personal responsibility, and many other skills needed for students to be successful in the 21st century.Transition Camp - Students will participate in activities related to their transition goals on their IEP and accessing transition services available to them.	X		X	X	No	Math - Algebra I, Algebra II, Geometry, Financial AlgebraEnglish - ELA 9, ELA 10, ELA 11, ELA 12Science - Earth and Space, Environmental, Biology, Physical ScienceSocial Studies - World History, US History (19th Century), US History (20th/21st Century), Civics, Geography,Health	Math - Algebra I, Algebra II, Geometry, Financial AlgebraEnglish - ELA 9, ELA 10, ELA 11, ELA 12Science - Earth and Space, Environmental, Biology, Physical ScienceSocial Studies - World History, US History (19th Century), US History (20th/21st Century), Civics, Geography,Health

Braxton	Our county Title I program supports students who “drop-in” throughout the day with educational opportunities that provide remediation and/or enrichment activities. Our Special Education services consist of students needed extended school year instruction based upon the Individualized Education Plans of the students. Our summer enrichment programs focus on all grade levels in reading and mathematics skills with additional focus on STEAM activities. Remediation for students in grades K through second in both reading and math has been determined through IReady End-of-Year benchmark data. Each school will have a teacher specifically trained for intervention in reading and math with specific skills identified.	X	X	X	X	X	X	Extended school year services will be provided based upon the Individualized Education Plan and will held at Flatwoods Elementary. Enrichment and remediation activities will be completed daily along with daily STEAM activities.		X	X	X	Due to a great deal of construction taking place at Braxton County High School, additional credit toward graduation, credit recovery, enrichment activities, and finishing incomplete credits for courses will all take place at Braxton County Middle School. Students not requiring credit recovery will be afforded the opportunity to attend two weeks of remediation/enrichment/STEAM activities based upon student needs and interests.		X	X	X	No	English language arts, mathematics, science, and social studies will be offered as needed. A teacher is employed to work with the students and teachers to design the curriculum that best meets the needs of the students in achieving student mastery of standards.	English language arts 9-12 ,Algebra I, Algebra II, Financial Algebra, Geometry, Earth Space Science, Biology, Anatomy, American/World Studies, Chemistry, Physics Civics. We offer our students the opportunity to recover any academic course needed.
Brooke	This summer program will provide explicit instruction in Math & Reading. Mason	A confidence-boosting STEM summer camp where kids build creative inventions and lasting friendships. Led by qualified local educators, our camps offer new and exciting hands-on experiences every year, provided by Camp Invention and the National Inventors Hall of Fame.			X	X			Dive deep into the realms of STEM/STEAM and entrepreneurship at this year’s STEMventure Camp, designed specifically for middle and high school students aged 11-17 (combined). This isn’t just any day camp; it’s a week-long journey of discovery and inspiration, blending workshops, hands-on projects, and an exciting field trip to a leading local manufacturer. From the fundamentals of 3D and 2D design to the intricacies of robotics and drone technology, campers will engage in a series of immersive activities that not only bolster their STEAM skills but also their creativity and innovation. With a focus on real-world applications and entrepreneurship, we’re preparing the next generation of innovators and thinkers. Morgan	Students will be engaged in explicit and systematic instruction in phonemic awareness, phonics, fluency, and vocabulary for reading. They will be engaged in number routines and early numeracy activities for mathematics.							MC After 3 summer camp provides students with two weeks of enrichment in a state park setting. Students participate in creative projects, physical activities, and social-emotional learning. This program is funded through the 21 CCLC after-school program grant.					Morgan County high school students will have options for credit recovery in both virtual and in-person formats. BSHS students will have the option of five days per week of extra tutoring and support in their credit recovery courses. BSHS may also have the need to offer initial summer credit through WVVS on the rare occasion that a student would be board-approved for early graduation. Additionally, a 21st CCLC-funded summer camp will be open to all Morgan County students in grades 5-12 during the first two weeks of August. MC After 3 summer camp provides students with two weeks of enrichment in a state park setting. Students participate in creative projects, physical activities, and social-emotional learning.		X	X		No fees will be charged to attend any of Morgan County summer programs.	The only potential course offered for high school credit would be through WVVS in order to offer a course to a student who may be board approved for early graduation. This offering would be used to prevent course overload during the students final year. Most likely, this would be an ELA 11 course to prevent the student from having to take two English courses at one time.	Morgan County high schools will be offering opportunities for credit recovery in all core classes including the following: ELA 9, ELA 10, ELA 11, ELA 12, Algebra I, Geometry, Algebra II, Trigonometry/Pre-Calculus, Calculus, Earth and Space Science, Biology, Chemistry, World History, U.S. History, Contemporary Studies, and Civics. Elective courses will be offered on an as-needed basis.

Randolph	Students will attend academic sessions in the morning focusing on priority standards in language arts and mathematics. These sessions will include engaging, evidence-based, hands-on lessons designed to enrich the students' summer learning experience while ensuring they have mastered the grade-level content needed to be successful in the coming school year. Morning sessions will also include social-emotional learning activities and resources. A social-emotional staff member will also be available to meet with students individually as needed throughout the day. Afternoon exploratory sessions will include activities and field trips focusing on health and wellness, the arts, STEM, history, nature and the environment, and college and career readiness.				X	X	X	X					In Credit Recovery, students will complete classes in the areas of language arts, mathematics, social studies, science, and electives to earn credit for courses previously failed. Credit recovery will be offered via an online platform, but students must report to campus to complete the assignments in the presence of an instructor. Sessions will be offered in an open campus format that will allow the students to set the work schedule that will best facilitate their needs. As such, structured activity periods have not been designed into the daily schedule as there are no set times that individual students are required to be present. Counselors will be available to provide guidance on graduation requirements and college/career readiness. They will also be available to address social-emotional issues as needed.			X		No fees will be charged.		As credit recovery will be offered through the Edgenuity online platform, the students will be able to recover any credit that they have failed if the course is available on the platform. However, the emphasis will be on ELA and math, and the facilitators for the summer program consist of one certified ELA teacher and one certified math teacher. • English Language Arts 9• English Language Arts 10• English Language Arts 11• English Language Arts 12• US Studies• World Studies• Contemporary Studies• Civics• Algebra I• Algebra II• Geometry• Transitions Math• Statistics• Trigonometry• Precalculus• Financial Math• Earth & Space
