- 1) Instructional program
- 2) Continuous use of student data
- 3) Other permissible activities

D. Operational Flexibility & Sustained Support

- 1) Operational Flexibility
- 2) Technical Assistance SEA and/or LEA
- 3) External Partners
- 4) Other permissible activities

Step II. Develop a narrative of the revision and provide a written justification for the revision below.

Narrative: East Bank Middle School wishes to provide additional extended learning opportunities for their students. These extended learning times will occur 4 days per week for one hour per day after school and 4 hours each Saturday until the WESTEST 2 testing window opens. Funds will be transferred from the K-12 Instruction salary line items (71.41044.11111.111/221/231/261.407) to K-12 supplemental salary line items (71.41044.11119.112/221/231/261.407) as there are surplus funds in these line items due to difficulty in obtaining staff early in the school year.

Justification for Revision: The faculty of East Bank Middle school has identified a need to provide additional extended learning time (after school and Saturdays) based on a review of student benchmark data. Approximately 81% of 6th and 7th grade students scored in Acuity Tiers I and II during the second benchmark while approximately 92% - 93% scored in Tiers I and II in mathematics.

Step III. Is a budget revision needed? Check one Yes No

If yes, submit the completed WVDE budget revision forms and the revised EXCEL spreadsheet with this revision template.

Note: All approved revisions will be posted on the WVDE website with the original grant application.
